## Basic Career Health Check Prospectus (BCHC)

A Basic Review of your CV, your career to date, your qualifications and your experience.

A Basic Career Health Check diagnoses the state of your career and, if necessary, recommends action to improve it. [It does not itself cure your career problems.](#)

Together we will examine:

- # How happy you are in your present job
- # How well managed you are
- # How well you manage others
- # The impact of your work on the rest of your life
- # How you are treated at you workplace
- # How satisfied you are with your achievements to date
  
- # What financial provisions you have made for the future
- # What you expect to achieve in the future
- # Whether you have a Career Plan
  
- # How your life outside work impacts on your job
- # How your personality has developed over the years
- # How well you are equipped to handle your career
- # About successes and failures you have had in your career to date

The check is conducted by email.

We reply very quickly to your information once we have started.

How long it takes depends on how quickly you answer our questions.

The Basic Career Health Check takes three to four days to analyse.

If your career seems to be on track and you are satisfied that it is, that's it.

We may suggest a Basic Career Health Check again in a year or two's time but we don't do anything more at this stage.

IF, however, we both think that your career is in need of more attention:

**EITHER** we may recommend a PASDAQ Review + Future Financial Needs Review (PRFN)  
(Personality, Abilities, Skills, Dreams, Ambitions, Qualifications)

This Review asks a lot of questions about your ambitions, hopes and objectives.

It sorts out the more fundamental problems people encounter in their careers.

When you have completed the PRFN we both review, by email and SKYPE, what we have learnt from it and how this may impact on your career.

**OR** we may suggest that you subscribe to THE CAREER & JOB PACKAGE

Please contact one of our TerrificMentors, below, for more information  
or to obtain the Basic Career Health Check.

*You'll feel better for it*
